## Warehouse fire

FIVE AS CLIP

Oakland firefighters making inspections near Fourth and Webster streets, spotted smoke coming from a fire in an apartment above The Warehouse bar streets just before 3 p.m. yesterday. They called in a second alarm and another crew on the way to training also responded. The blaze was brought under control in 15 minutes by 41 firefighters with nine pieces of equipment. No one was injured, but the apartment on the second floor was gutted and the attic burned, said Assistant Chief Al Sigwart. The bar received some water damage.
